

A Powerful Scheduling & Attendance Module, now available for iSolved Time.

iSolved Time is now available to help reduce the time spent on employee scheduling and tracking attendance. This new module allows you to easily build employee schedules, monitor attendance, and compare schedules vs. time worked. Because it is native to iSolved, all data is immediately accessible for accurate payroll processing.

Contact us at **804.355.3430** to learn more about iSolved Time Scheduling & Attendance today!

FEATURES:

A schedule layer on the employee's time card allows for immediate access to see whether he or she worked an assigned shift, reported in late or out early, or missed the shift altogether.

Alerts are available for In Late, In Early, Under Hours, Over Hours, Out Early, Out Late, Unscheduled Absence, Out of Schedule, In Grace, Out Grace, and Other Options

Users can build configurable attendance rules based on specific criteria and assign employees to the appropriate shifts

Accommodate three different types of schedules: single, open, and multi-level shifts

Filter employees while scheduling

Variety of views by hours, days, months

Shows both absences and holidays on the schedule

Copy and move shifts between employees

Click and drag select for adding a shift to an employee's schedule

Updated scheduling reports: Employee Attendance Export, Employee Attendance Report, and Employee Attendance Variance
